

09:30-09:50 **Integrated LN Imaging for Lung Cancer Including CT, PET, and MRI: Update**

Ho Yun Lee

Samsung Medical Center, Sungkyunkwan University School of Medicine, Associate Professor

[Recent Activities]

- Articles Published in SCI Journals, Total = 158, As First or Corresponding Author = 112, h-index = 44
- Fleischner Society, Member (2019-)
- Korean Workshop for Pulmonary Functional Imaging (KWPF) , Chair of Committee on Planning (2018-)

[Research Interests]

- Radiomics and Imaging Genomics for Thoracic Oncology
- Multimodal Imaging Approach Through CT, PET and Thoracic MRI
- Percutaneous Lung Biopsy for Genomic Study and Imaging-Based Targeted Liquid Biopsy
- Functional Imaging Analysis for Lung Perfusion and Ventilation through CT and MRI
